You are a mental health care professional and have been asked to design a Web 2.0 Presentation, brochure or PowerPoint/Keynote that will inform the public about your selected mental disorder. Your task is to include information in your presentation that covers the following areas:

You are a mental health care professional and have been asked to design a Web 2.0 Presentation, brochure or PowerPoint/Keynote that will inform the public about your selected mental disorder. Your task is to include information in your presentation that covers the following areas:

1. general information/brief description/introduction
2. causes
3. signs and symptoms
4. diagnosis
5. treatment options
6. title page (flap/slide) - visual/your information

Your presentation opening slide or title flap should be bold, eye catching, and have the name of your mental disorder clearly displayed along with your name, health section (black or gold). Please refer to your rubric for grading. Remember to list at least 2 different sources used at the bottom of one of the flaps/slides. See me for help with embedding your Web 2.0 presentations or PPTs. If you choose to do a brochure you must hand that in the DAY of it's due date before you leave school in a hard copy format and post the digital copy to the Safe Assignment.
